**Q7. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.**

I believe that in this application SODC is required to carry out assessment on the impact the site would have on transport including air quality is there any evidence this has been carried out . They themselves have stated it would put further stress on Headington roundabout and increase congestion on the A40.

Furthermore the proposed development would have a major impact on the ecology of the area.It would surround sites that are classed as SSSI. The building of houses would bring more footfall and put these areas in danger of being destroyed.

**Q10. Would you like to participate at the oral part of the examination, which takes place as part of the examination process?**

No

**Q11. Would you like to comment on another policy or paragraph?**

No
