There is no policy to provide for settlement boundaries. An example would be for larger villages to remain separate from other towns or smaller villages. Larger villages are part of that all-important hierarchy - so they need protection as separate entities. Gaps between settlements are an important aspect of this separation and should be included in either Strategic Objective 1.1 or 1.2. Sonning Common residents do not want to be joined up to Reading or to other villages.

Q10. Would you like to participate at the oral part of the examination, which takes place as part of the examination process?

The plan promotes excessive numbers of new homes beyond what Government formulae require. Furthermore, SODC's overall housing numbers are far above local needs. Using the Government's preferred housing projections suggests a housing need of 15,000 new homes in South Oxfordshire, not the 22,000 as stated in the plan.

Q21. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

The proposed housing density figure of 45 homes per hectare (45 dph) for larger villages such as Sonning Common, represents an 80% increase from the current 25 dph under the Core Strategy. Crucially, this higher figure is a minimum and it is inflexible, without respect for the varying characteristics of individual sites, or existing neighbouring densities to determine whether a high or lower density would be appropriate. Put bluntly, it is a one size fits all.

Q28. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

Our adopted Neighbourhood Plan already allocates 195 new homes plus reserves. Now we are informed by SODC that we need to make room for another 108. How is this justified given that the overall new homes requirement across the district is based on untested assumptions?
