Dear Planning department

Please see attached some recommendations.

These have all been taken on board by West Oxfordshire District Council and the are actively including equestrians in their Local Plan and large developments.

This is a forward thinking Planning Department that encourage all forms of outdoor activity for the health and wellbeing of all their community. This encourages tourism, businesses and people to move to this area.

I hope you will see the benefits of including equestrians in to your plans as WODC have done.

Kind regards
Rachel Livingstone
