**Subject: STRAT 12 NORTHFIELD**

**My Name is Sandra Clarke and I live at** [REDACTED]  
[REDACTED]

**I Wish to appeal the proposal of permitting housing, to be built on the Green Belt near Horspath Village. I do not find the Local Plan 2034 legally compliant or sound.**

**I wish to be added to the database to receive further information about the local plan 2034**

**I feel that putting 1800 houses in an already congested area, is not viable. [REDACTED] struggle with traffic coming out of the village on a daily basis, as you maybe aware, it has been noted that 900 vehicles come through the village in an hour.**

**I feel very strongly that we must preserve the green belt for our childrens sake, our grandchildren and for many further generations who will follow us.**

**We need to be protecting wild life, as we have a lot of munkjacks, pheasants, bats etc, if we do not protect these animals who will ??????????**

**I also feel very strongly that these houses which have been proposed are for Oxford City Council not South Oxfordshire District Council, Oxford City should be building on their own land, not another Councils. They should be using brown field land up on housing, if the proposed application goes ahead and they build on Green land you will set a precedence, for them to take and swallow all that is left of the green belt.. The Green belt has been protected for years and years, it will be a very sad day for everybody, if this continues to go through.**

**We will no longer be a village and will be swallowed up into the suburbs, village life as we know it, will just be a distant memory, we will loose all of our views and sense of our rural character.**

**I also believe that if this was to go ahead, they would take down the bridge, which currently prevents any HGV vehicles coming through the village, the place would become a rat run, people have fought for years to protect this bridge, but that would not matter to these money making people!!!**

**I strongly urge you to stop and think about the consequences this would cause, and the damage that would be done, which could never be reversed.**

**I would appreciate you to acknowledge my comments**

**Kind Regards**

**Sandra Clarke**
