Q5. For comments on the Local Plan, please provide the paragraph or policy to which your comments relates. You can view a list of policies here. If you wish to comment on one of the evidence documents or the policies maps, please state the document title as well as the paragraph or policy reference.

Document / Policy / Paragraph: STRAT13 Land North of Bayswater Brook

Q6. Do you consider the Local Plan and supporting documents:

	Yes	No	Don't know	Not answered (OPTION HIDDEN FROM LIVE SURVEY)
are legally compliant?			X	
are sound?		X		
comply with the Duty to Co-operate?			X	

Q7. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

SODC has failed to follow the correct assessment process.
Building on the land North of Bayswater Brook would destroy the natural beauty that Barton residents can enjoy. It would heavily increase traffic through Barton and this would create more pollution from car fumes, which would effect the health and safety of local residents, especially children at the local school. The Green road roundabout is already known for its safety issues and extra traffic congestion would worsen this.

It would also cause flooding at Bayswater brook.

The route up Bayswater road towards Stanton St. John is a popular cycle route and the fields leading up to the nature reserve a popular place for dog walkers.

I moved to Barton because of the relaxing view and easy access to the countryside. Presently I can walk from my house to the nature reserve.

Barton is an NHS Healthy New Town's project:<https://www.england.nhs.uk/ourwork/innovation/healthy-new-towns/>

This beautiful land is very beneficial for mental and physical health.

Q8. Please set out any modifications you consider necessary to make the Local Plan legally compliant or sound, having regard to your comments above. (NB - any non-compliance with the duty to co-operate is incapable of modification at examination). It will be helpful if you could put forward your suggested wording of any policy or text as precisely as possible.

Carry out the required assessments on Transport impacts, biodiversity, air quality and flood risk

Q10. Would you like to participate at the oral part of the examination, which takes place as part of the examination process?

No

Q11. Would you like to comment on another policy or paragraph?

No
