**Subject:** Individual Response to SODC Planning about the Local Plan 2034

With reference to STRAT12 Northfield:

I would like to object to the inclusion of the Northfield housing site in the Local Plan 2034 and am appalled at the lack of any prior consultation during the development of the Plan. I would like to hear the justification for the "exceptional circumstances" to remove this site from the Green Belt which noting that as large areas of the site are frequently flooded with surface water I am astonished that it would even be considered as suitable for housing. Surely this development would contradict your own policy: STRAT6: Green Belt in the Plan and it certainly is in conflict with the National Planning Policy Framework, paragraphs 133-137.

I request that Northfield is completely taken out of the Local Plan 2034 and would like my email to be acknowledged and to be added to your database to receive updates on this from now on.

Yours sincerely,

Mark Davies
