Do you consider the Local Plan and supporting documents:

(1) are legally compliant

No

Don't know

(2) are sound

(3) comply with the Duty to Cooperate

Yes

No

Don't know

Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

This policy will not be effective in supporting and promoting economic prosperity.

There is no purpose in allowing economic development *within the built up areas of towns and villages* settlements because it will not deliver what it suggests. It is a simple and established fact that if land is available for development within these settlements it has a greater value as residential than commercial as a result there is no reasonable prospect of land being brought forward for economic rather than residential development in such locations. I therefore suggest that the same policy as the Vale of White Horse is followed – also within the Science Vale.

Please set out any modifications you consider necessary to make the Local Plan legally compliant or sound, having regard to your comments above. (NB - any non-compliance with the duty to co-operate is incapable of modification at examination).

It will be helpful if you could put forward your suggested wording of any policy or text as precisely as possible.

See below the adopted Vale of White Horse Policy

Core Policy 28:

**New Employment Development on
Unallocated Sites**

Proposals for new employment development (Use Classes B1, B2 or B8) will be supported on unallocated sites in or on the edge of, the built up area of Market Towns, Local Service Centres and Larger and Smaller Villages provided that the benefits are not outweighed by any harmful impacts, taking into account the following:

- i. the effect on the amenity of nearby residents and occupiers
- ii. the provision of safe site access for pedestrians and cyclists and for all types of vehicles likely to visit the sites, and measures to promote the use of sustainable modes of transport where possible, and
- iii. the scale, nature and appearance of the employment development and its relationship with the local townscape and/or landscape character
