Document / Policy / Paragraph: STRAT 12 Northfield

Q6. Do you consider the Local Plan and supporting documents:

	Yes	No	Don't know	Not answered (OPTION HIDDEN FROM LIVE SURVEY)
are legally compliant?		X		
are sound?		X		
comply with the Duty to Co-operate?			X	

Q7. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

I object to the inclusion of the Northfield housing site in the Local Plan 2034. I've never been consulted about this at any earlier stage in the development of this Local Plan and especially as the plan has been revised to immediately affect the village of Horspath.

The Green Belt Assessment of Strategic Sites in South Oxfordshire (2018), written by LUC for SODC reports that moderate to high levels of harm would result if the Northfield site was removed from the Green Belt.

mpingement of the green belt will only begin to eradication the historical towns and villages as they merge into larger conurbations.

This blatant disregard for the green belt is illegal as the need to build on the land has not been proved to the point where "exceptional circumstances" exist to build on green belt land.

The infrastructure just doesn't exist to support a build of this type at this location, this has not been considered.

Therefore I request that Northfield is completely taken out of this Local Plan 2034.

Q8. Please set out any modifications you consider necessary to make the Local Plan legally compliant or sound, having regard to your comments above. (NB - any non-compliance with the duty to co-operate is incapable of modification at examination). It will be helpful if you could put forward your suggested wording of any policy or text as precisely as possible.

STRAT 12 Northfield is removed from the Local Plan 2034

Q10. Would you like to participate at the oral part of the examination, which takes place as part of the examination process?

No

Q11. Would you like to comment on another policy or paragraph?

No
