Q7. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

The proposed housing density figure of 45 homes per hectare (45 dph) for larger villages, such as Sonning Common, represents an 80% increase from the current 25 dph under the Core Strategy. Crucially, this higher figure is a minimum and it is inflexible, without respect for the varying characteristics of individual sites, or existing neighbouring densities to determine whether a high or lower density would be appropriate. Put bluntly, it is a one size fits all.

Q10. Would you like to participate at the oral part of the examination, which takes place as part of the examination process?

Q14. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

Our adopted Neighbourhood Plan already allocates 195 new homes plus reserves. Now we are informed by SODC that we need to make room for another 108. How is this justified given that the overall new homes requirement across the district is based on untested assumptions?

Q21. Please provide further information in relation to the previous question. e.g. why you do or do not consider the Local Plan to be legally compliant or sound.

Sonning Common has already had significant new developments completed or are underway, as agreed within the current Neighbourhood Development plan, which have already had a significant impact on the village - for example excessive traffic, parking issues and new difficulty in accessing GP services. Available land for the proposed increase in 108 homes are in the majority within AONB, which per policy should be protected wherever possible.

Q24. Would you like to participate at the oral part of the examination, which takes place as part of the examination process?
