Being residents [REDACTED] we have massive concerns and objections to the proposed building plans at wick farm.  
As we spend a lot of time walking the land around wick farm we have huge concerns about the impact that will be caused to the massive amount of wildlife that live here.  
It would be devastating to lose such lovely Country side and wildlife that we class as our extended garden.  
There is also a worrying concern about the huge increase of vehicles using the already overcrowded, poorly maintained and designed roads around this area.  
Headington round about is already Chaos at the best of times let alone with hundreds if not thousands more vehicles.  
Flooding is also a factor that I believe had not be taken seriously when planning to build at wick farm there is not a field that doesn't hold water when it rains let alone the massive amount of natural spring under the ground.  
I understand and appreciate various wildlife and Archaeological surveys have been carried here but I think its only residents that spend there life here understand the true devastating effect this will have on the lives of residents and wildlife alike.

Q8. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.
