Dear Sir/Madam

I am writing to object to the proposed building development on Bayswater Farm field.

This proposal is not only for the building of the houses, but also for a road needed to access the houses, which would join up Sandhills to Barton. This road would then be used to cut-off the Green Road roundabout and become a rush-hour rat-run, and create a volume of traffic that our small local transport network couldn't cope with.

Sandhills is a quiet, peaceful community with a local primary school and lots of people enjoying family life.

All the children that go to Sandhills Primary School would not be able to walk to school as safely as they used to. It would also affect people that walk and explore the nature and countryside around Sandhills.

I urge you to reconsider this development.

Yours faithfully

Mrs Joanna Cleese
