My comments are as follows.

I OBJECT to the proposed map modification to include Option 2 for the Watlington Bypass.

Option 2

- Will create excessive traffic noise pollution to the close – proximity residents
- The problem of traffic noise pollution will be transferred from Watlington Town Centre to the area of the Willow Close roundabout.
- The original solution that everyone was satisfied with, the outer edge road on Option 1 was agreed and satisfactory.
- There will be a serious Pedestrian Road Safety issue, considering the volume of traffic that will come around the roundabout, and the very close proximity of the road carriageway to the footpath around the roundabout.
- The properties affected will suffer from devaluation, and a decrease in security because of the quick get-away exit routes.

If your comments cover more than the boxes provided, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

Thank you for your comments.
