Q7. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

p41/Points 1,3,4,5,4.56 Please retain the original policies of LP2034. Please consult with local people about design, density and max. height of buildings. Buildings should be built to high ecological standards. MM17 Para2(vi), p71; Para3(iii) p72; Para 4.115 p69. Please keep the original wording and policy of LP Para 4.115 so links to the Infrastructure Delivery Plan are key and the developer contributes up to £70 million for highway infrastructure. MM17 Para3. Point 9. Please respect local character of buildings, not those of Barton Park. The Mosaics development looks like a baggarck or prison! Please ensure that there are many fewer houses on the north of development to preserve Sidlings Copse and College Pond. MM17 Para4.111 The ecological assessment used for Sidlings Copse and College Pond was inadequate. A proper assessment should be done. The current one does not comply with the Strategic Environmental Assessment Regulations. Sp please change the wording of MM17 para.4.111 to insist that an independent ecologist carries out a detailed ecological impact assessment compliant with the SEA regulations to understand the effects of development on the SSI; masterplanning must take into account the recommendations of this new detailed assessment.

Q8. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.
