There is no clarity on how the development on Bayswater Farm field will affect road usage within the Sandhills Estate. If this development (120 dwellings) for potentially 240 cars will use Sandhills as an alternative to Headington Roundabout there will be a direct danger to life for the school pupils and other residents as this will encourage drivers to speed in a neighbourhood infrastructure which does not support "thru traffic" situations and is already seeing plenty of cases of speeding. Also it is unclear how non-car modes of transport would be encouraged.

The Headington Roundabout cannot support the current demand as traffic in rush hour can be backed up for 20 minutes. It also encourages impatience as the road markings are not clear and go against the highway code. There is no clear solution how this demand can be alleviated as it stands, let alone with further development.

Q8. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.
