

Emerging South Oxfordshire Local Plan Proposed Main Modifications Consultation

Part A - contact details

Q1. Are you responding as an:
Individual

Individual contact details

Q2. Due to statutory planning regulations, a name and means of contact is required for your representation to be considered:	
Title	Mr
Full name	Simon Reynolds
Business / Organisation name (if relevant)	
Job title (if relevant)	
Address line 1	
Address line 2	
Address line 3	
Postal town	
Postcode	
Telephone number	
Email address	

Part B - your comments

Q5. You can provide your comments on the Emerging South Oxfordshire Local Plan Proposed Main Modifications in this section. The list of documents you can comment on are: Schedule of Proposed Main Modifications as amended by Erratum Schedule of Policies Map Changes Sustainability Appraisal Addendum Habitats Regulations Assessment Addendum If you wish to provide comments on more than one proposed main modification or document, you will be given the option once you have completed this section. Please select the document you wish to comment on using the drop-down menu below:
Schedule of Proposed Main Modifications

Q6. Which Main Modification number or consultation document are you commenting on? If you are commenting on the Main Modification document, please provide the main modification number (for example MM1) in the box below. If you are unsure of the 'modification number', please click here to view the Schedule of Proposed Main Modifications. If you are commenting on any of the other consultation documents (for example the Sustainability Appraisal Addendum), please provide the relevant section, paragraph or page number in the box

MM2

Q7. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

Whilst I agree with this, in no way can the strategic site at Chalgrove Airfield comply with it. This is no a location that assists in reducing the need for travel.

Q8. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

No Response

Q9. Please upload any supporting documents below:

No Response

Comment again, or finish?

Would you like to comment on another main modification or supporting document?

Yes, I'd like to make another comment

Part B - your comments

Q10. You can provide your comments on the Emerging South Oxfordshire Local Plan Proposed Main Modifications in this section. The list of documents you can comment on are: Schedule of Proposed Main Modifications as amended by Erratum Schedule of Policies Map Changes Sustainability Appraisal Addendum Habitats Regulations Assessment Addendum If you wish to provide comments on more than one proposed main modification or document, you will be given the option once you have completed this section. Please select the document you wish to comment on using the drop-down menu below:

Schedule of Proposed Main Modifications

Q11. Which Main Modification number or consultation document are you commenting on? If you are commenting on the Main Modification document, please provide the main modification number (for example MM1) in the box below. If you are unsure of the 'modification number', please click here to view the Schedule of Proposed Main Modifications. If you are commenting on any of the other consultation documents (for example the Sustainability Appraisal Addendum), please provide the relevant section, paragraph or page number in the box

MM3 page 27

Q12. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

Climate change is obviously extremely important and should be at the forefront of everyones minds.I support this addition but again question how a remote location for a strategic site, such as Chalgrove sits with this?

Q13. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

No Response

Q14. Please upload any supporting documents below:

No Response

Comment again, or finish?

Would you like to comment on another main modification or supporting document?

Yes, I'd like to make another comment

Part B - your comments

Q15. You can provide your comments on the Emerging South Oxfordshire Local Plan Proposed Main Modifications in this section. The list of documents you can comment on are: Schedule of Proposed Main Modifications as amended by Erratum Schedule of Policies Map Changes Sustainability Appraisal Addendum Habitats Regulations Assessment Addendum If you wish to provide comments on more than one proposed main modification or document, you will be given the option once you have completed this section. Q17. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

The spacial strategy should support growth in locations that help to reduce travel. Gradual and organic growth may do this but the selection of a large strategic site at Chalgrove Airfield, which is remote and poorly served by road infrastructure will do help to achieve this.

Q18. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

No Response

If you are commenting on the Main Modification document, please provide the main modification number (for example MM1) in the box below. If you are unsure of the 'modification number', please click here to view the Schedule of Proposed Main Modifications. If you are commenting on any of the other consultation documents (for example the Sustainability Appraisal Addendum), please provide the relevant section, paragraph or page number in the box

MM8 page 41

Q22. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

Point 2 regarding the density of development. Villages and larger villages have evolved a particular density which must be respected. The Council's own objective 5.2 supports this. Higher densities do not respect the scale and character.

What is meant by "an appropriate amount and mix of uses"? appropriate for the council's needs or the local residents.

Point 4. This is in direct conflict with the council's objective 5.2 to support development that respects the scale and character of our towns and villages. I strongly object to this modification. This appears to give developers the green light to build whatever they want and will likely lead to conflict.

Point 5. What does optimal use mean? Could this be a reason to increase densities? Also 'Masterplans' need to be of a standard and checked for accuracy. In the case of a recent planning application for Chalgrove Airfield there is a gross distortion of the facts.

Q23. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

No Response

Q24. Please upload any supporting documents below:

Q26. Which Main Modification number or consultation document are you commenting on? If you are commenting on the Main Modification document, please provide the main modification number (for example MM1) in the box below. If you are unsure of the 'modification number', please click here to view the Schedule of Proposed Main Modifications. If you are commenting on any of the other consultation documents (for example the Sustainability Appraisal Addendum), please provide the relevant section, paragraph or page number in the box

MM10 page 46,47 and 48

Q27. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

Point 1. Homes England have a different timetable for development that suggested by the District Council. Homes Englands timetable is unrealistic and an example of their misleading application.

Para 2 (viii) Chalgrove as it stands is self contained and the local retail serves the existing community very well. To set up any future strategic site as a retail centre will have a detrimental impact on the surrounding settlements, in particular Watlington.

The transport infrastructure, current and (poorly) proposed will not be able to cope with the increase in housing let alone additional visitor numbers. The modelling completed so far does not take into account visitor number and is at best suspect for accuracy.

Para 121 of the NPPF permits new shopping centres "provided this would not undermine key economic sectors or sites or the vitality and viability of town centres". This change contradicts the NPPF, and SODC Policy TC1, and should be removed.

Para 2(ix)c SODC have finally admitted that the site is to cater for the wider District and not the unmet needs of the City therefore the bus routes should serve the wider area. In any event it is clear from their responses that the informed opinion of The Oxford Bus Company and Stagecoach is that the bus services suggested and much vaunted are not sustainable.

Para 2(ix)d Agree but where there are existing cycle routes and not ones that are suggested in the future. In the case of Chalgrove Airfield there are no existing wider routes and the relative remoteness of the site means that cycle routes will only be provided within the settlement itself.

Para 3(vii)(new) In regard to densities. I strongly object to this. This conflicts with Objective 5.2 and the higher densities do not respect the existing settlement or any other in the wider area. This type of higher density housing together with slower traffic will no doubt lead to a degrading of the air quality (something which Watlington has been wrestling with for years)

Q28. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

Q32. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

I support this, quality infrastructure is essential. The transport infrastructure does however need to serve the entire strategic site and not just bits of the approach as in the case of Chalgrove Airfield. It is not enough to just mitigate some of the surrounding area at the expense of other parts. If the infrastructure cannot be improved to adequately cater for all the development then the site is not suitable and should be removed from the plan.

Q33. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

Support:

Comment – where a character assessment has been prepared as part of a made Neighbourhood Development Plan, and a Planning Application is submitted which does not demonstrate that the positive features have been incorporated, that Application should be refused. How does this sit with an increase in density of housing in an area where traditionally much lower densities have been the norm?

Q38. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

para (ix). I support this however it is not enough to say that the local community has been consulted merely because events or consultation were held. The views of the local communities need to be accurately reflected.

Para 9.16. For the local community its to be prepared to take on long-term stewardship of assets they need to be engaged with the process, therefore consultations need to be meaningful and accurately reported as above.

Q43. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

It is nonsense to suggest this site will be self-contained or as was described a "critical mass" there will be an increased need for travel to and from the site. The site is not sustainable and will be car-based. There is no credible plan for the required level of public transport and a recent response to the planning application for Chalgrove Airfield by the Managing Directors of The Oxford Bus Company and Stagecoach confirm their view, originally submitted in consultations to the LP that the proposed increase to the bus service is not viable.

Q53. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.

This is entirely inaccurate. This is not a brownfield site. It is an active airfield. It is not in the SODC register of brownfield sites. Between 80% and 85% of the site is greenfield with a high biodiversity value. Development of the site would therefore be a significant negative

Q58. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.
