It seems to me that the Sydlings Copse and College Pond SSSI and Wick Copse Woodland should be better protected from the potential impact of the proposed development of the Land North of Bayswater Brook. MM17 para. 4.111 should provide for that by including an independent assessment of the ecological impact before the Masterplan is written.

Improvement of transport links is going to be crucial for the proposed development to work. The County Council should retain its right to veto on master planning the site. To that effect, the words "and agreed" should be reinstated.

There should be more tangible commitment to lower density development to the north and west, i.e. towards the SSSI and the "view cone" to Oxford. At the moment the wording is very vague and could still lead to higher than desired densities across the whole site.
