Q7. Please provide your comments in the box below. If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question. You will also be able to upload any supporting documents using the button below.

Para (2 vi,b) Reinstate the words " the financial costs of the engineering works to" . Without these words the clause is meaningless.

Para 3 Replace " collaboration and agreed" with "consultation". If it has to be agreed then you need a mechanism for dealing with deadlock.

Para 3vi Replace "key transport corridors" with the "key transport corridor, namely the B480" . The Oxford Road, Garsington is too narrow to have higher density development on both sides. It will be like a canyon. Any high rise dwellings should border the wider B480. The rewording also avoids ambiguity.

Para 3 vi Include at end of criterion (vi) " A landscaped urban edge, 200m wide along much of its length, on the south and east will provide a transition into the wider landscape through woodland planting. The landscape planting should create a strong and defensible edge to Oxford; create a permanent sense of openness between the site and Garsington and Horspath and protect the same villages from the visual intrusion of built development" . This inclusion echos the words in the plan in MM15 3(ii) and ensures consistent treatment across the two adjacent sites. This wording also reflects the map on p66 of the forthcoming plan.

Para 4.103 Include at end " and to protect the village of Garsington from additional traffic". This was a point made at the enquiry and the OCC promised to provide mitigation measures.

Q8. If your comments are more than 500 words long, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.
