Please provide your comments below:

If your comments are over 500 words it would be really helpful if you could also provide a summary of your comments using the text box in the next question.

If you wish to include any supporting documents, please attach them to this comment form.

There are only two comments from Swyncombe Parish Council relating to Chalgrove Development.

MM10

We would like to record our concern regarding the Chalgrove proposed development.

Chapter 3, Vision and Objectives, STRAT 1 Strategic Objectives state: i) endorse lower energy use and support an increase in renewable energy use; ii) *support growth in locations that help reduce the need to travel*

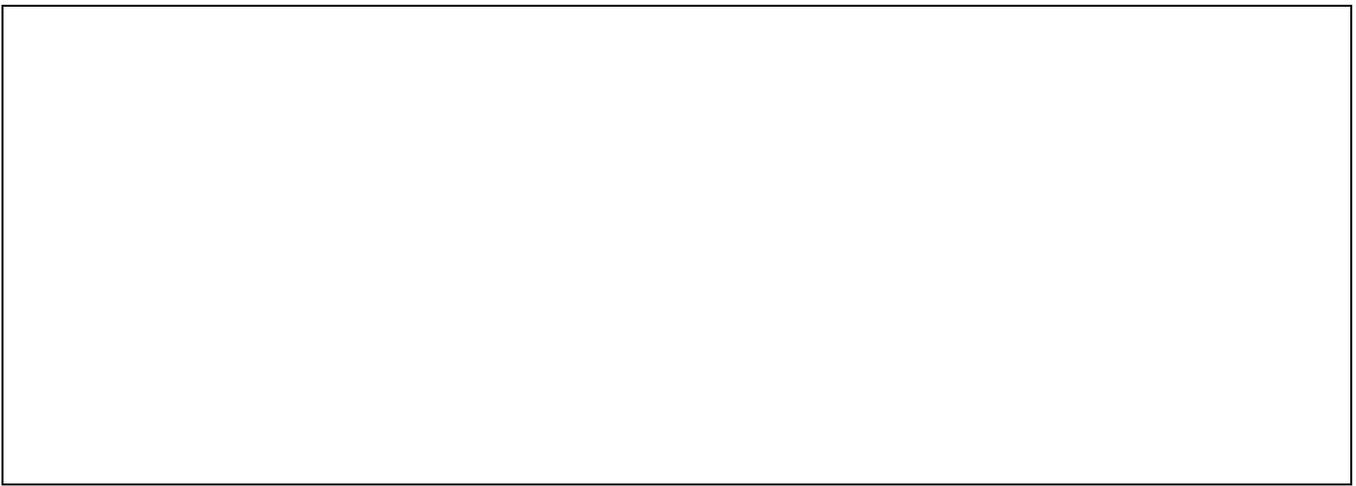

Chalgrove represents a direct and stark dichotomy between development proposal and strategic objectives

The SOLP is adversely affected by excessive housing numbers mandated by central government on the basis of an annual target of 300,000 houses, and this has implications for South Oxfordshire, given its landscape limitations, the Thames to the South, large areas being AONB (to the South) and Green Belt to the Northeast. The strategy should be to expand main 'hubs', where it is easier to expand infrastructures to meet new demands, rather than create new hubs in open countryside.

(Continue on page 5 if necessary)

If your comments cover more than the boxes provided, please use the space below to provide a summary. You are not required to summarise your comments, but a summary would help us in our reporting.
